Scientific Board

- **Jiří Cihlár** — *Applications of Mathematics and Statistics, Education in Mathematics* — J. E. Purkyně University in Usti nad Labem, Czech Republic
- **Roman Frič** — *Probability Theory, Fuzzy Mathematics, Quantum Structures* — Slovak Academy of Science, Košice & Catholic University in Ružomberok, Slovak Republic
- **Joanna Grygiel** — *Universal Algebra, Logic* — Jan Długosz University in Częstochowa, Poland
- **Jacek M. Jędrzejewski** — *Theory of Functions, Mathematical Analysis* — Jan Długosz University in Częstochowa, Poland
- **Bohumil Novák** — *Education in Mathematics* — Palacký University in Olomouc, Czech Republic
- **Adam Płocki** — *Probability Theory, Education in Mathematics* — State Higher Vocational School in Nowy Sącz, Poland
- **Yuriy Povstenko** — *Application of Mathematics* — Jan Długosz University in Częstochowa, Poland
- **Grażyna Rygał** — *Education in Mathematics* — Jan Długosz University in Częstochowa, Poland
- **Oleg Tikhonenko** — *Computer Science, Applications of Mathematics* — Częstochowa University of Technology, Poland
- **Pavel Tlustý** — *Probability Theory, Optimization, Education in Mathematics* — University of South Bohemia in České Budějovice, Czech Republic
- **Marián Trenkler** — *Education in Mathematics, Graph Theory* — Catholic University in Ružomberok, Slovak Republic
- **Małgorzata Wróbel** — *Mathematical Analysis* — Jan Długosz University in Częstochowa, Poland
- **Tomáš Zdráhal** — *Algebra, Education in Mathematics* — Palacký University in Olomouc, Czech Republic
- **Marcin Ziółkowski** — *Statistics, Computer Science* — Jan Długosz University in Częstochowa, Poland

Secretary: **Katarzyna Domańska**

Computer Typesetting and Making-up: **Jacek M. Jędrzejewski**

Graphical Project of a Cover: **Sławomir Sadowski**

ISSN 1896-0286

Cooperating Reviewers

Grzegorz Bryll — University of Opole, Poland

Roman Frič — Slovak Academy of Science, Košice

& Catholic University in Ružomberok, Slovak Republic

Roman Ger — Silesian University in Katowice, Poland

Zygfryd Kominek — Silesian University in Katowice, Poland

Janusz Matkowski — University of Zielona Góra, Poland

Tadeusz Poreda — Łódź University of Technology, Poland

Yaroslav P'yanylo — Ukrainian National Academy of Sciences, Ukraine

Grażyna Rygał — Jan Długosz University in Częstochowa, Poland

Oleg Tikhonenko — Częstochowa University of Technology, Poland

Marián Trenkler — Catholic University in Ružomberok, Slovak Republic

Szymon Wąsowicz — The University of Bielsko-Biała, Poland

Władysław Wilczyński — University of Łódź, Poland

Wacław Zawadowski — Warsaw University, Poland

Contents

Part I – Education in Mathematics

1.	R. J. Pawlak, E. Korczak-Kubiak – <i>Elements of Mathematical Epistemology – Elements of the Philosophy of Teaching Mathematics</i> _____	11
2.	B. Bartošová – <i>Is Math a Gift?</i> _____	25
3.	A. Bryll, R. Sochacki – <i>Some Remarks on Fluid Flow in Hourglasses,</i> _____	29
4.	R. Grebeň, J. Molnár – <i>Geometric Terminology and Imagination</i> _____	37
5.	J. Hodaňová, T. Zdráhal – <i>Central Limit Theorem Visualized in Excel</i> _____	51
6.	L. Janská – <i>ICT Influence on Pupils' Learning (Not Only in Mathematics Teaching)</i> _____	57
7.	J. Jędrzejewski, T. Kostrzewski – <i>A Mistake in Definition of a Limit of Function and Some Consequences</i> _____	61
8.	J. Jędrzejewski, I. Tyrała – <i>Why the Area of a Rectangle is Calculated by the Formula $P = a \cdot b$?</i> _____	67
9.	J. Jędrzejewski, M. Ziółkowski – <i>Divisibility and its Application in Teaching Mathematics in the third educational level</i> _____	71
10.	J. Jureczko – <i>Using Graphic Display Calculator in Solving Some Problems with Polynomials</i> _____	83
11.	M. Korcz – <i>Workshops as a Significant Vocational Education Component of Students Specializing in Teaching Fields</i> _____	95
12.	J. Kowalski – <i>Can Information Technology Change Attitude of the Student in the Teaching of Mathematics?</i> _____	101
13.	J. Laitochová, J. Wossala – <i>Pupils' Motivation in Mathematics Teaching Using the CLIL Method</i> _____	111
14.	J. Major, M. Major – <i>Non-standard Tasks in Mathematical Education</i> _____	115

15.	B. Novák, E. Nováková – <i>Inquiry Based Mathematics Education (IBME) and its Reflection by Primary School Teachers</i>	121
16.	A. Pyzara – <i>Many Faces of Mathematical Modelling</i>	129
17.	M. Šnoriková – <i>The Evaluation of Mathematical Textbooks According to Their Teaching Quality</i>	143
18.	L. Stępień, M. R. Stępień, M. Ziółkowski – <i>On Teaching of Geometric Transformations in School</i>	153
19.	J. Stróżyk – <i>Blended learning in Polish schools</i>	165

Part II – Mathematics and Its Applications

1.	K. Domańska – <i>On Some Characterization of an Inverse Proportionality Type Function</i>	175
2.	R. Frič, M. Papčo – <i>Fuzzified Probability: from Kolmogorov to Zadeh and Beyond</i>	179
3.	G. Krech – <i>Boundary Value Problems for Poisson Integrals for Hermite Expansions</i>	189
4.	K. Nowakowska, M. Turowska – <i>A Note on Weakly g-upper Continuous Functions</i>	195
5.	Y. Povstenko – <i>Axisymmetric Thermal Stresses in a Half-space in the Framework of Fractional Thermoelasticity</i>	207
6.	M. Selyaninov – <i>Application of Modular Computing Technique for High Speed Implementation of Cyclic Convolution</i>	217
7.	K. Troczka-Pawełec – <i>K-continuity Problem of K-superquadratic Set-valued Functions</i>	227

8. **K. Troczka-Pawelec, I. Tyrala** – *K-continuity of K-subquadratic Set-valued Functions*237
9. **M. Turowska** – *About Differentiability and VBG_* Class*245
10. **A. Yatsko** – *An Estimation Method of Traffic Safety Level of Vehicles on a Level Crossing*251
11. **R. Telgársky** – *Eyes, Optics and Imaging: Mathematics and Engineering Innovations Inspired by Nature*259

Part III – Varia

1. **I. Jóźwik, M. Terepeta** – *Profesor Tadeusz Świątkowski – dobry duch Politechniki Łódzkiej*277

The articles submitted to Scientific Issues of Jan Długosz University in Częstochowa, Mathematics should be written in English according to the L^AT_EX template which can be found in: <http://www.scientificissues.ajd.czyst.pl/>

Pictures should be made as .jpg files.

To submit an article, pdf and T_EX files should be addressed to the editor of our journal by e-mail sci.iss.ajd@ajd.czyst.pl

An article submitted to Scientific Issues of Jan Długosz University in Częstochowa is first considered by the Scientific Board. If the subject of a paper is not consistent with the journal profile or the text of a paper contains distinct defects, a paper can be rejected.

After preliminary acceptance by the Scientific Board an article is sent to reviewers. The choice of reviewers is confidential. A review evaluates an article and indicates unambiguously whether or not an article can be published. After positive review, an author (authors) should correct an article according to suggestions of reviewers and submit to the Journal the final version of an article. The Scientific Board reserves the right for making small corrections in the text of the final version of an article.

If a paper is financed by some associations or other institutions, the indication of the source of finance is expected.

Submission of a paper for publication in Scientific Issues of Jan Długosz University in Częstochowa implies the acceptance of the following requirements.

- A person submitting an article is responsible for its contents.
- The Journal publishes only new and original research.
- Articles are published in paper and electronic versions. Paper version is the primary one.
- Publication in the Journal foresees no author's emoluments.
